Penso che quest'anno sarà fantastico!

Sì! Prof ha detto che lavoreremo su Antoine Risso!

Quindi cercate su Internet "Antoine Risso"

Did you know Antoine Risso was a famous botanist and naturalist!?

There is so much information about him!

He even discovered a new species of dolphin!

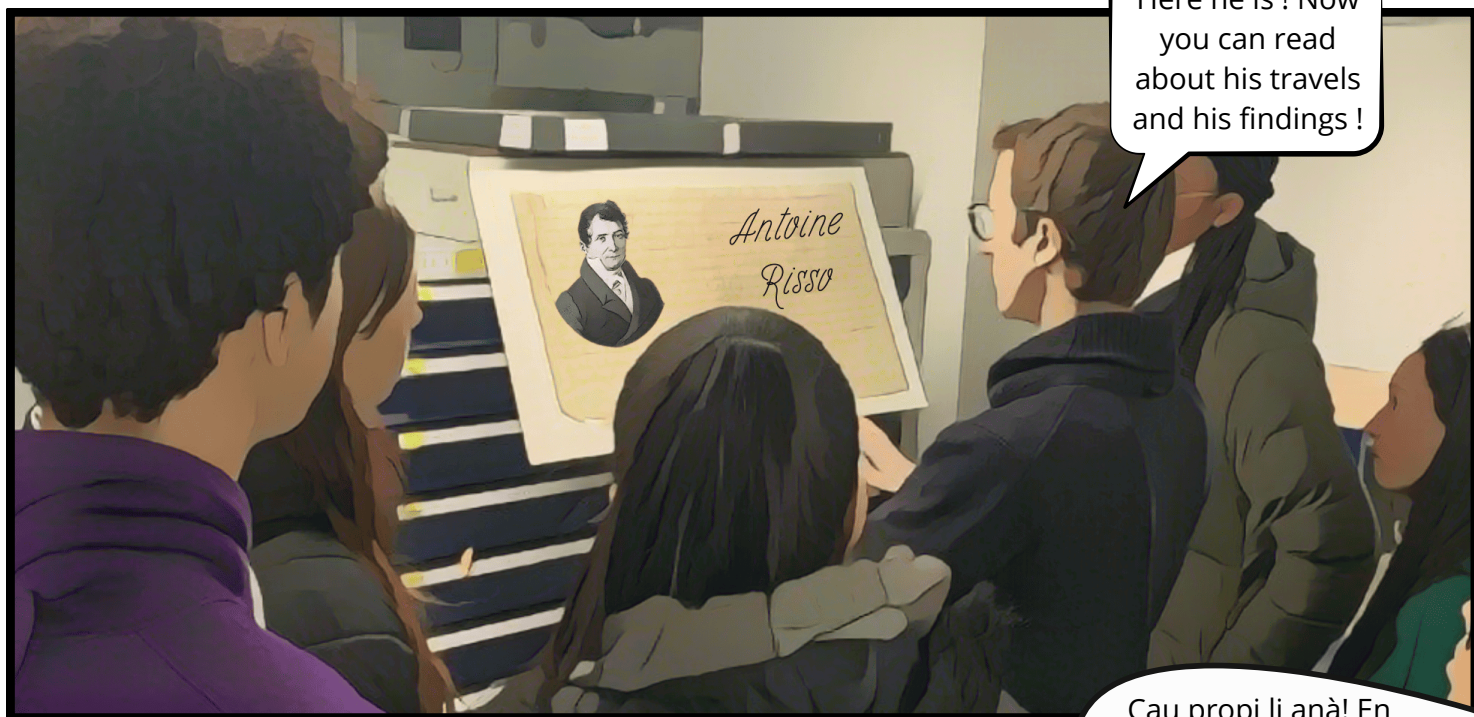

Let me show you the work of Antoine Risso...

Everything he did was amazing... And to think that he was from Nice!

A class visited the archives to learn more about Antoine Risso's discoveries...

Here he is ! Now you can read about his travels and his findings !

Time is passing and the projects continue...

Aprendemos a proteger el mar y continuamos nuestra misión de descendientes de Antoine Risso

Pendant ce temps-là, au collège, les élèves découvrent le projet de la fresque plastique

Nous allons participer à notre petit niveau à cette grande entreprise

Tu t'imagines, le plastique met 1000 ans à se décomposer!

Monsieur, mais c'est si grave que ça la pollution plastique?

Vous avez compris les enjeux j'espère?

Oui! Il est temps d'agir! Et vite!

¡Es genial lo que estamos haciendo!
¡Me encanta este fresco!

Incroyable! Si on ne fait rien, bientôt il y aura plus de plastique que de poissons dans la mer

¡Existen soluciones para evitar la polución! En Riso, las tenemos, dentro....

¡Tira fuerte! Vas a crear un delfín.

Esta máquina transforma el plástico en objetos

Y fuera del colegio...

Our pupils are cleaning up the shore to help protecting the planet...

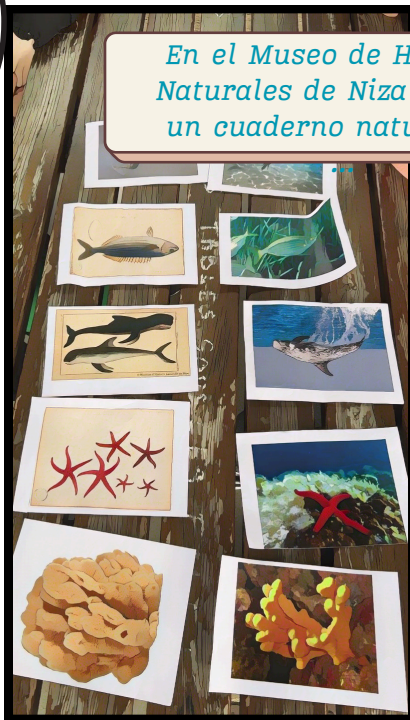

How could people leave their trash on the beach ? It's crazy !

It's a good thing we're here. We've collected a lot of waste ...

En el Museo de Historias Naturales de Niza creando un cuaderno naturalista.

Que orgullo trabajar aquí; seguimos la misión de Antoine Risso.

¡Increíble!

Profe, ¿qué hacemos ahora?

Continuamos la aventura...

¿No? ¿Cómo? ¿Qué hacemos?

Tengo tantas ganas de contar todo esto a los otros...

Nuestro proyecto se extiende...
